	Chapter 6– Mitigation	
1.	ALARA stands for:	A L A R A
2.	An Active Systems requires:	
3.	A passive system is powered by:	
4.	List the allowable duct material for vent pipes:	1. 2. 3.
5.	List some basic criteria for mitigation systems:	• • • • • • • •

6.	List the 4 types of Mitigation Systems:	1. 2. 3. 4.
7.	Define Block Wall Depressurization:	
8.	Drain Tile Depressurization (DTD)	
9.	Define Sub Membrane Depressurization (SMD)	
10.	Sub-Slab Depressurization (SSD)	
11.	List 4 primary criteria for discharge Points:	1. 2. 3. 4.
12.	List the basic criteria for Acceptable Fan Locations:	1.

		2. 3. 4. 5.
13.	Unacceptable fan locations:	1. 2. 3.
14.	List Common Indicator functions:	• •
15.	List some Required Labeling criteria:	• •
16.	List 2 criteria when using sump pits in mitigation systems:	1. 2.
17.	List 3 primary criteria for Crawl Space Membranes:	1. 2. 3.
